EMERGENCY SCAM PROTOCOL

If it feels urgent, emotional or threatening, stop first.

1 PAUSE

Do not reply, click, pay or share information yet.

2 ASSESS

What does it really want — money, a code, a login, an approval? If so, it is pressure, not proof.

3 TALK

Say the request out loud to someone you trust, or call your bank on the number from your card.

PRESSURE IS A SIGNAL TO SLOW DOWN

A genuine request survives you checking it with someone else.
